

Can you really trust your data?

Are you able to make fast informed
decisions about your business?

Can you leverage your business
and drive strategy?

Are you looking backwards or
forwards?

Charles Taylor InsureTech works collaboratively with clients
to bring data to life and drive insight through analytics.

Our dedicated team offer an end-to-end service ranging from
data capture to insight. Whether your requirement is an individual
project or a full transformational programme, we have the
capabilities to help you.

For us, it's more than just the data.

Our depth of insurance expertise enables us to quickly
understand your business, processes, people, and culture
to work with you in partnership to build long term solutions.

Our solutions

Every solution is as unique as your organisation. Our framework focuses on improving your internal capability one step at a time, providing adaptable and sustainable solutions that are built for long term sustainable growth.

Data Visualisation

Effective visual communication enabling delivery of clear and efficient information to help users with analysis - spotting trends and uncovering opportunities.

Data Management

Effective use of people, process and technologies to ensure full control of critical data.

Data Strategy

Maximise the use of data & analytics to drive competitive advantage and reduce frictional costs.

Data Blending

Accelerating the onboarding and combination of datasets.

Self-Service Insight

Broader and more varied analysis by empowering business users.

Data Science

The use of systems and tools such as AI, Machine Learning, Big Data & IOT, helping to extract knowledge and insights from data in it's various forms.

Why Charles Taylor InsureTech?
