

# Kcenter

A tailored Process Automation and Document Management solution that delivers real business benefits.

Access to current and accurate information at the right time is essential for business success. And now, it's now more important than ever for companies to understand their business processes.

However, tackling process inefficiencies can be daunting, combining continual pressures to reduce costs whilst delivering excellence in business agility, customer service and compliance. It's little surprise therefore that many businesses turn to Process Automation and Document Management solutions to help them overcome these challenges.

Charles Taylor InsureTech's Kcenter solution provides you with an intuitive, scalable and robust solution that delivers tangible, quantifiable benefits from Day One.

## Looking to reduce overheads and drive change?

## Key features

Proactive tracking and management of business workloads

Diary management and reminders

Intuitive document storage and retrieval

Full version control

Extensive search functionality

Seamless integration with Microsoft products with browser and smart device access

Drag and drop workflow design

Extensive, robust security with granular audit features and permissioned access

Interfaces with legacy systems

Operational management reporting suite

## Why Kcenter

### Simple and flexible

Easy to set up and configure with minimal IT input. Integrates with current and legacy systems. Intuitive to use.

### Security and audit

Helps adhere to regulatory and compliance obligations. Creates demonstrable audit trails even when sharing data and processes with third parties.

### New markets

Helps to launch new products or penetrate new territories efficiently and economically.

### Cost effective

Improves productivity, reduces overheads and alleviates bottlenecks by automating manual tasks and standardising processes. Allows businesses to concentrate on providing excellent customer service.
